B. ADAPTIVE ALLOCATION

- Thropp, J., Oron-Gilad, T., Szalma, J.L., & Hancock, P.A. (2006). Low and High Levels of Attentional Control in Adaptive Automation *Proceedings of the Human Factors and Ergonomics Society 50th Meeting*. In press.
- Duley, J.A., Scallen, S.F., & Hancock, P.A. (1994). The response of experienced pilots to interface configuration change for adaptive allocation. In M. Mouloua and R. Parasuraman (Eds.), *Human Performance in automated systems: Current research and trends*. (pp. 134-141). Hillsdale, NJ: Lawrence Erlbaum. PDF Available
- Harris, W.C. Goernert, P.N., Hancock, P.A., & Arthur, E.J. (1994). The comparative effectiveness of adaptive automation and operator initiated automation during anticipated and unanticipated taskload increases. In: M. Mouloua and R. Parasuraman (Eds.). *Human performance in automated systems: Current research and trends*. (pp. 40-44). Hillsdale, NJ: Erlbaum. PDF Available
- Hancock, P.A. (1991). The aims of human factors and their application to issues in automation and air traffic control. In: J.A. Wise, V.D. Hopkin, and M. Smith (Eds.). *Automation and system issues in air traffic control*. (pp. 187-199). Berlin: Springer-Verlag. PDF Available
- Higgins, T.J., Chignell, M.H., & Hancock, P.A. (1989). Knowledge-based supervisory control in aerospace applications. In: P. A. Hancock & M. H. Chignell (Eds.). *Intelligent interfaces: Theory, research, and design* (pp. 333-364). Amsterdam: North-Holland. PDF Available
- Hancock, P.A., & Chignell, M.H. (1987). Adaptive control in human-machine systems. In: P. A. Hancock (Ed.). *Human factors psychology* (pp. 305-345). Amsterdam: North-Holland. PDF Available

C. UNMANNED AERIAL VEHICLES

- Hancock, P. A., Gilson, R., Mouloua, M., Szalma, J.L., & Oron-Gilad, T. (2006) Is the UAV control ratio the right question? *Ergonomics in Design* in press. PDF Available
- Oron-Gilad, T., Chen, J.Y.C., & Hancock, P.A. (2005), Unmanned Aerial Vehicles from the Top-Down and the Bottom-Up. In: N. Cooke, H. Pringle, H. Pedersen, and O. Connor (Eds.), *The human factors of remotely operated vehicles*. Volume 7 of the Advances in Human Performance and Cognitive Engineering Research Series. (pp. 37-48), Elsevier. PDF Available
- Mouloua, M., Gilson, R., & Hancock, P.A. (2003) Human-centered design of unmanned aerial vehicles. *Ergonomics in Design*, 11 (1), 6-11. PDF Available

- Mouloua, M., Gilson, R., Kring, J., & Hancock, P.A. (2001) Workload, situation awareness, and teaming issues for UAV/UCAV Operations. *Proceedings of the Human Factors and Ergonomics Society, 45*, 162-165. PDF Available
- Mouloua, M., Gilson, R., Daskarolis-Kring, E., Kring, J. & Hancock, P.A. (2001) Ergonomics of UAV/UCAV mission success: Considerations for data link control, and display issues. *Proceeding from the Human Factors and Ergonomics Society, 45*, 144-148. PDF Available

2. SURFACE TRANSPORTATION

A. DRIVER BEHAVIOR

- Hancock, P.A., Ganey, H.C.N., Mouloua, M., & Smither, J.A. (2003). Why is it so hard to say whether cell phone use in cars is safe or not? *Proceedings of the 15th Triennial Congress of the International Ergonomics Association*, Seoul, Korea. PDF Available
- Ward, P, Hancock, P.A., Ganey, H.C.N., Mouloua, M., & Szalma, J.L. (2003). The task of modeling driver performance. *Proceedings of the 15th Triennial Congress of the International Ergonomics Association*, Seoul, Korea. PDF Available
- Hancock, P.A. & de Ridder, S.N. (2003). Behavioural accident avoidance science: Understanding response in collision incipient conditions. *Ergonomics, 46* (12), 1111-1135. PDF Available
- Hancock, P.A. (2002). Human factors issues in an operational human-centered vehicle collision avoidance system. In L.P. Hartley (Ed.). *Fatigue and transportation: Coping with the 24 Hour Society*, Elsevier Science. Freemantle, Australia. PDF Available
- Hancock, P.A., Kane, M.J., Scallen, S., & Albinson, C.B. (2002) Effects of gender and athletic participation on driving capability. *International Journal of Occupational Safety and Ergonomics, 8* (2), 281-292. PDF Available
- Hancock, P.A., Scallen, S.F. (1999) The driving question. *Transportation Human Factors, 1* (1), 47-55. PDF Available
- Parasuraman, R., & Hancock, P.A. (1998). Designing automated warning systems: A signal detection and Bayesian analysis. *Proceedings of the Third Automation Technology and Human Performance Conference*, Norfolk, VA.
- Parasuraman, R., Hancock, P.A., & Olofinboba, O. (1997). Alarm effectiveness in driver-centered collision-warning systems. *Ergonomics, 40* (3), 390-399. PDF Available

Hancock, P.A., Wulf, G., Thom, D.R., & Fassnacht, P. (1989). Contrasting driver behavior during turns and straight driving. *Proceedings of the Human Factors Society* 33, 918-922. PDF Available

B. DRIVER DISTRACTION

Lesch, M.F., & Hancock, P.A. (2004). Driving performance during concurrent cell-phone use: Are drivers aware of their performance decrements? *Accident Analysis & Prevention*, 36 (3), 471-480. PDF Available

Hancock, P.A., Lesch, M., & Simmons, L. (2003) The driver distraction effects of phone use during a crucial driving maneuver. *Accident Analysis & Prevention*, 35 (4) 501-514. PDF Available

Siebert, P., Mouloua, M., Burns, K., Marino, J., Scagolia, L., Winters, L., Hancock, P.A., & Agliata, D. (2002). The effects of telematics on driver distraction. *Proceedings of the Human Factors and Ergonomics Society*, 46, 1868-1870. PDF Available

Jerome, C.J., Ganey, H.C.N., Mouloua, M. & Hancock, P.A. (2002) Driver workload response to in-vehicle device operations. *International Journal of Occupational Safety and Ergonomics*, 8 (4), 539-548. PDF Available

Hancock, P.A., Simmons, L., Hashemi, L., Howarth, H., & Ranney, T. (1999). The effects of in-vehicle distraction on driver response during a crucial driving maneuver. *Transportation Human Factors*, 1 (4), 295-309. PDF Available

C. MOTORCYCLES

Hancock, P.A., Oron-Gilad, T., & Thom, D. (2005). Human factors issues in motorcycle collisions. In: I. Noy and W. Karwowski, (Eds.). *Handbook of human factors in litigation*. (pp. 18:1-20), CRC Press: Boca Raton, FL.

Wulf, G., Hancock, P. A., & Rahimi, M. (1989). Some causes of automobile-motorcycle collisions. *Proceedings of the Human Factors and Ergonomics Society*, 33, 910-912. PDF Available

Wulf, G., Hancock, P. A., & Rahimi, M. (1989). Motorcycle conspicuity: An evaluation and synthesis of influential factors. *Journal of Safety Research*, 20 (4), 153-176. PDF Available

Hancock, P.A., Hurt, H.H., Jr., Ouellet, J.V., & Thom, D.R. (1986). Failure of driver sustained attention in the etiology of motorcycle-automobile collision. *Annual Meeting of the Human Factors Association of Canada*. PDF Available

Thom, D.R., Arao, H.G., & Hancock, P.A. (1985). Hand position and motorcycle front brake response time. *Proceedings of the Human Factors and Ergonomics Society*, 29 (1), 278-281. PDF Available

D. INTELLIGENT TRANSPORTATION SYSTEMS

Hancock, P.A.. (2006). Intelligent transportation systems. In: W. Karwowski (Ed.). *International Encyclopedia of Ergonomics and Human Factors*.(Second Edition), (pp. 1989-1993), London: Taylor and Francis.

National Research Council (2005). *Interfaces for Ground and Air Military Robots: Workshop Summary*. Tal Oron-Gilad, rapporteur & P.A. Hancock, Chair. Washington, DC: The national Academies Press. PDF Available

Mouloua, M., Jerome, C., Helmick, J.A., & Hancock, P.A. (2002). In-vehicle navigation systems and driving performance: Effects of display mode and traffic condition. Paper presented at the *Southeastern Psychological Association*, March 22-24, Orlando, FL.

De Riddler, S. N., & Hancock, P. A. (2000). Driver interaction in a shared simulated environment. *Proceedings of the DSC Driving Simulation Conference*, (pp. 359-367). Paris, France, September, 2000. PDF Available

Manser, M.P., Hancock, P.A., Kinney, C.A., & Diaz, J. (1997). Understanding driver behavior through application of advanced technological systems. *Transportation Research Record*, 1573, 57-62. PDF Available

Parasuraman, R., Hancock, P.A., & Olofinboba, O. (1997). Alarm effectiveness in driver-centered collision-warning systems. *Ergonomics*, 40 (3), 390-399. PDF Available

Hancock, P.A. (1993). Evaluating in-vehicle collision avoidance warning systems for IVHS. In: E.J. Haug (Ed.). *Concurrent engineering: Tools and technologies for mechanical system design*. (pp. 947-958), Berlin: Springer-Verlag. PDF Available

Andre, A.D., Hancock, P.A., & Smith, K. (1993). Getting there from here with traveltek. *Ergonomics in Design*, 2, 16-17. PDF Available

Hancock, P.A., Dewing, W.L., & Parasuraman, R. (1993). Safe and effective intelligent vehicle-highway system technologies must be driver centered. *Ergonomics in Design*, 2, 13-15. PDF Available

Hancock, P.A., & Caird, J.K. (1992). Intelligent vehicle highway systems: Problems and promises. *Human Factors Bulletin*, 35 (10), 1-4, (Part I); 35 (11), 5-7 (Part II). PDF Available

Hancock, P.A., & Parasuraman, R. (1992). Human factors and safety in the design of Intelligent Vehicle Highway Systems (IVHS). *Journal of Safety Research*, 23 (4), 181-198. PDF Available

Shekhar, S, Coyle, M.S., Shargal., M., Kozak, J.J., & Hancock, P.A. (1991). Design and validation of heads-up displays for navigation in IVHS. *IEEE International Conference on Vehicle Navigation and Information Systems (VNIS/IVHS)*, Dearborn, Michigan. PDF Available

E. DRIVER FATIGUE

Oron-Gilad, T., & Hancock, P.A. (2005) Road Environment and Driver Fatigue *Proceedings of the Third International Driving Symposium on Human Factors in Driver Assessment, Training and Vehicle Design* 318-324. PDF Available

Brill, C.J., Mouloua, M., Hancock, P.A. & Gilson, R.D. (2002). A multi-sensory protocol for evaluating workload associated with new Army technologies. *Proceedings of the 23rd annual Army Science Conference: Orlando, FL*. PDF Available

Desmond, P.A., Matthews, G., & Hancock, P.A. (1997). Development and validation of the driving fatigue scale. *Journal of Alcohol, Drugs, and Traffic Safety*, 14, 621-626.

Hancock, P.A., & Scallen, S.F. (1997). The performance and workload effects of task relocation during automation. *Displays*, 17, 61-68. PDF Available

Hancock, P.A., & Verwey, W.B. (1997). Fatigue, workload and adaptive driver systems. *Accident, Analysis, & Prevention*, 29 (4), 495-506. PDF Available

Desmond, P.A., & Hancock, P.A. (1997). Motivation, and fatigue-related impairments in simulated driving. *Proceedings of the Human Factors and Ergonomics Society*, 41, 1003-1007. PDF Available

Hancock, P.A., Wulf, G., Thom, D., & Fassnacht, P. (1990). Driver workload during differing driving maneuvers. *Accident Analysis & Prevention*, 22 (3), 281-290. PDF Available

F. TIME-TO-CONTACT

Hancock, P.A. & Caird, J.K. (2002) Left-turn and gap acceptance crashes. In: R.E. Dewar and P.L. Olson (Eds.). *Human factors in traffic safety*. (pp. 613-652) Lawyers & Judges Publishing: Tucson, AZ. PDF Available

Manser, M.P., & Hancock, P.A. (1999). Approaching object occlusion as a salient source of time-to-contact information. In: A.G. Gale, (Ed.), *Vision in Vehicles VII*. (Amsterdam) Elsevier Science B.V., North-Holland. PDF Available

- Hancock, P.A., & Manser, M.P. (1998). Time-to-contact. In: A.M. Fever and A.M. Williamson (Ed.). *Occupational injury: Risk, prevention, and intervention*. London: Taylor & Francis. PDF Available
- Hancock, P.A. & Manser, M.P. (1997). Time-to-contact: More than tau alone. *Ecological Psychology*, 9 (4), 265-297. PDF Available
- Manser, M.P., Hancock, P.A., & Kinney, C.A. (1996). Research paradigm as a factor influencing estimates of time-to-contact. *Proceedings of the Human Factors and Ergonomics Society*, 40, 1202-1206. PDF Available
- Manser, M.P., & Hancock, P.A. (1996). The influence of approach angle on estimates of time-to-contact. *Ecological Psychology*, 8 (1), 71-99. PDF Available
